1. Decisions on changes of rules and regulations for 2023, based on the proposals of the Sport Commission:

The Sport Commission had its online meeting on September 25, 2022. Based on the proposals of the Member Federations and discussion at the meeting, the SC prepared their final proposals for changes of rules and regulations for the Rock'n'Roll discipline for 2023. Due to the very tight schedule and many competitions from September to November, the Presidium reviewed the proposals after the last competition, The World Championships in Lyon (November 12, 2022).

Consultations of the Presidium were made online on Teams. Final voting on proposals of the SC took place on November 28-29, 2022, and the following proposals were accepted:

(53) Formations:

- **Removal of deduction points based on missing dancers in a formation on a stage.**
- **Ladies, Girls, and Junior formations:**
 - **Performing several acrobatic elements at the same time equals one acrobatic element execution.**
 - **Any acrobatic element performed inside the intro part is counted in the total number of acrobatic elements for a specific category.**
- **Ladies and Girls formations:**
 - **The long program will be danced only in the final round.**

(54) Couple categories:

- **The new amount of deductions for small rhythm mistakes: -2 points**
- **SL5 – definition of the allowed dance figures:**
 - **All dance figures performed without any assistance of the partner are allowed if there is constant contact with the floor**
- **Rock'n'Roll Juniors:**
 - **Removal of the obligatory acrobatic groups**
 - **No restriction on the number of performed combinations and acrobatic elements inside one combination.**

- **Rock'n'Roll Main Class Contact Style and Free Style:**
 - There will be no points deducted for not performing the obligatory acrobatic figures groups for all rounds leading up to and including the quarter-final round (i.e., obligatory groups will be applied only to programs with 6 acrobatic elements).
- **Rock'n'Roll Main Class Free Style:**
 - In the semifinal and final rounds, the total value of the combination can be a maximum of 12 points (if the value is higher, it will be reduced to 12 points by the acro-calculator).
 - Combinations with exit between the legs and landing on the partner's body – change of the value of exit from 1 point to -1 point (i.e., reduction of 2 points in comparison with current scoring)

(55) Individual music of couples for the finals:

- The minimum Rock'n'Roll part of the music for the couple categories equals a minimum duration time for each category. The Music Commission will clarify the definition of the Rock'n'Roll part of the music.

All changes will be incorporated in the corresponding official documents and published on the WRRC official website as soon as possible.

The date of the next Presidium meeting was not decided.
